

SleepEzy 3 Zone

Superbly comfortable and infinitely adjustable to suit all physiques and sleeping positions.

Three-part construction.

Cross section of SleepEzy pillow (right) shows the three internal chambers which you access individually and adjust or lower to suit your comfort needs. The inner 'curtains' also serve to prevent the 'bunching up' affect which can occur in traditional pillows.

Adjustable sleeping pillow.

Sleepezy's two separate chambers are intentionally overfilled. This allows you to delete filling as required in order to achieve your optimum comfort and support.

Supports the neck and cradles the head.

Gentle contours of SleepEzy provides the user with a choice of using either curve (long or short sides), catering to all comfort and support needs.

Inner Filling: All-new high-loft premium grade polyester fibre.

Outer cover: 100% Fine weave japara cotton.

✓ **Adjustable Filling**
